(under re-construction - delays expected - due to a high-volume of calls - due to Covid. Expected wait time: 1 days. Trying to nail down this page in particular. In theory, the rest will flow from there. Picked up a bit of Covid whilst writing this - adds some verite. Assume it's Covid - i've never had a test - should win a T-shirt at least - I survived Covid ... without a test or a vaccine. Ok, new tangential development - read in deep-voice of shoot-em-up computer game/TV promo voice-over)
