Farrar's Involvement

We know the authors - we know all those who sold-it-on - but who was the master-mind? Who had the sheer audacity/the power to put this radical plan together? To create - *the lie of the millenium* - then enforce it - to shape/control world culture?

You're thinking Fauci - yes of course he's right up there - but the man who took the reins - in a crisis - brought it all together is:

Sir Jemery Farrar -

- Liaised with the Prox O authors - close friends with Holmes and Rambaut - both regularly funded by Wellcome
- Convened/chaired the Feb 1 teleconference - where Prox O's pangolin scam formed the backbone of discussions
- O*n-sold-it* Feb 2 in a teleconference to Tedros

Doesn't seem like a long rap-sheet - but these were crucial plays - without which - none of this could have happened.

The Feb 1 Teleconference was in essence - The bosses - Farrar/Fauci/Collins - meeting with their highest paid pets.

Prox O *Acknowledgments* section: *We thank M. Farzan for discussions, and the* ***Wellcome Trust for support****.*

Farrar sees himself, as others do, as indeed he is: a PR genius. An ahead-of-the-curve calculator - decisive - man of action - not afraid to think big. Not afraid to act big.

This was Jeremy's time to shine. For *the public good*.

Once you make that decision - the truth - no longer matters - you prosecute your case the same way a good lawyer would.
