The Authors

My name is Dulan Drift - i am a ***conspiracy theorist***.

According to my research, the following men ***conspired*** to fabricate the Pangolin Paper to cover-up the origin of the Covid Atrocity:

Kristian Andersen. Edward Holmes, Robert Garry, Andrew Rambaut, Ian Lipkin

The web they weave:

- All friends - regularly collaborating with each other
- All have a hotline to Nature for whatever they want published
- Funded by Wellcome (VIZIONS), NIH, US Military, CCP
- Genomic surveillance advocates
- Deep CCP-ties
- All knowingly lied to deceive the world about the origin of Covid - to serve their own financial/power interests

They are big accusations - I'm confident i can prove it.
